

## PURPOSE

*Super Nano Antirust Auto & Moto is a unique corrosion prevention spray for protection of metal surfaces in automobiles and motorcycles. It serves as a waterproofing spray that helps to prevent moisture from damaging all kinds of metal surfaces in automobiles and motorcycles and helps to completely displace any type of moisture (dampness, humidity, fog, rain, acid rain, chlorinate water, salt water etc.). Best anti-rust treatment that helps to protect external and internal metal surfaces from any kind of aggressive action that causes corrosion*

## PROPERTIES

*The corrosion prevention spray has high adhesion to metals and other materials. Nanoparticles penetrate deep into a structure of the applied surface to displace moisture, remove oxides, and stop corrosion or prevent it from occurring in the first place. The product does not lose its properties at the temperature range from - 80°C to +160°C. It is harmless on all materials and can penetrate into hard-to-reach spots. The product can be applied on wet surfaces. The anti-rust spray maintains its elasticity for a long time.*

## APPLICATION AREAS

*Chains, threaded couplings, brake cables, ignition locks, trunk locks, battery terminals, and the like.*
