

PURPOSE

Super Nano Antirust Professional is a unique corrosion prevention spray for protection of metal surfaces against any kind of aggressive action that causes corrosion. It serves as a waterproofing spray that helps to prevent moisture from damaging all kinds of metal surfaces and helps to completely displace any type of moisture (dampness, humidity, fog, rain, acid rain, chlorinate water, salt water etc.). Best anti-rust treatment that helps to significantly increase service life of equipment and prevents premature breakdown of the equipment from occurring due to corrosion.

PROPERTIES

The corrosion prevention spray has high adhesion to metals and other materials. Nanoparticles penetrate deep into a structure of the applied surface to displace moisture, remove oxides, and stop corrosion or prevent it from occurring in the first place. The product does not lose its properties at the temperature range from -80°C to $+160^{\circ}\text{C}$. It is harmless on all materials and can penetrate into hard-to-reach spots. The product can be applied on wet surfaces. The anti-rust spray maintains its elasticity for a long time.

APPLICATION AREAS

Piping, rails, agricultural equipment, metal tools and the like.

PROFESSIONAL SUPER NANO ANTIRUST

75ml / 150ml / 300ml

PURPOSE

Super Nano Grease Professional is a unique nano lubricant that penetrates, lubricates, and protects for a long time like no other regular lubricant. An invisible nanocoating guarantees to stop squeaking and protects from wear and tear for a minimum of 1 year. It is recommended to use the product for any movable mechanisms. The product significantly prolongs the life of movable mechanisms.

PROPERTIES

Nanoparticles penetrate into the structure of the applied surface, displace moisture, stop squeaking and build a coating that reduces friction and wear. The product does not lose its properties at the temperature range from -16°C to +60°C. It is harmless on all materials and can penetrate into hard-to-reach spots. The product can be applied on wet surfaces and it maintains its elasticity for a long time.

APPLICATION AREAS

Recommended for the use on any movable mechanisms.

PROFESSIONAL SUPER NANO GREASE

75ml / 150ml / 300ml

PURPOSE

Super Nano Electric is a unique electrical insulation spray that helps to displace 100% of moisture from the electrical contacts and protects electrical contacts from moisture damage. The product prevents current leakage and insulation breakdown. An invisible nanocoating protects electrical equipment and devices even when they are exposed to water. The product provides a powerful protection for at least one year and significantly prolongs the life of electrical equipment.

PROPERTIES

Super Nano Electric builds a long-life protection from all kinds of moisture. Nanoparticles penetrate into the structure of the applied surface, displace moisture, and remove oxides. It instantly restores insulation resistance and significantly improves current conductivity. The product penetrates into hard-to-reach spots and can be applied on wet surfaces. Super Nano Electric maintains its elasticity for a long time and is harmless on all materials.

APPLICATION AREAS

Super Nano Electric can be used in any type of industry regardless of operation scale. Examples of application areas: mining, power generation, mechanical engineering, agriculture, aviation, navigation, shipbuilding and repair, transportation such as a railway system, public utilities, automobile manufacturing and repair and the like.

PROFESSIONAL SUPER NANO ELECTRIC
